

PROTECTIVE FACE SHIELD

1 x Head Strap | 1 x Shield

Replaceable
shield

Soft forehead pad
(15mm)

Easy to adjust
for a perfect fit

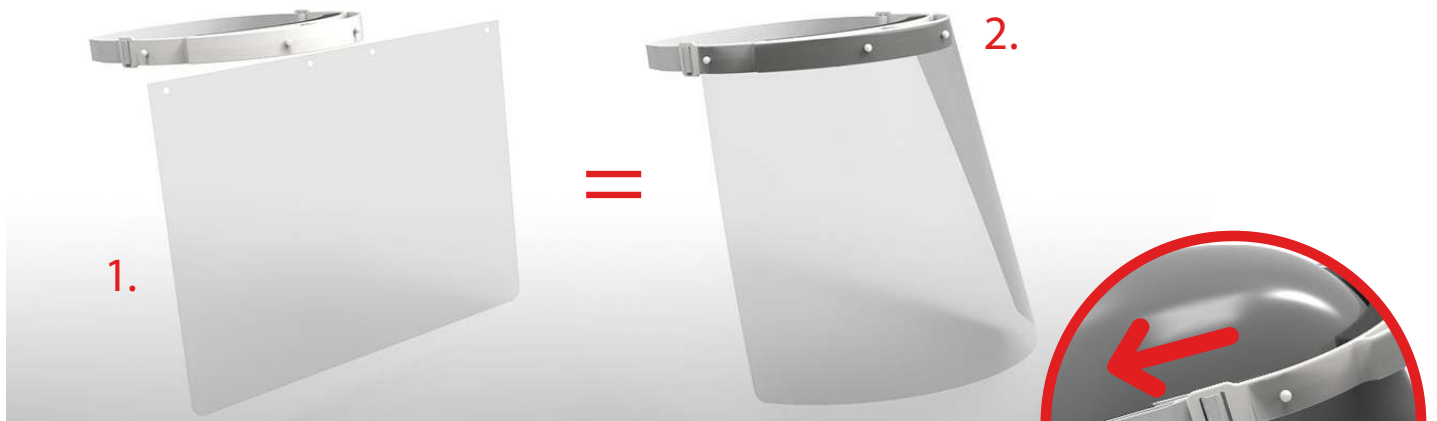

- Full face protection (mouth/nose/eyes)
- Comfortable to use due to soft forehead pad
- Easy to adjust elastic band
- Maximum head movement possible
- Suitable for use with glasses
- Optimal air circulation prevents shield from fogging
- One size fits all
- Surgical mask change possible without removing face shield
- Replacement shields available

Protective face shield is certified to:
EN 166.2001 PSA/Rev. 01 2.4.2020 –
Test principles COVID-19 threat:

(EU) regulation 2016/425 PSA (March 9th 2016)
Category II (March 9th 2016) according to annex II
Certified by ECS – 1120-ECS-20 as of April 17th 2020
ECS type approval– 1120-ECS-20 / MR 11201-ECS-20

This is not medical equipment.
Used alone it is not sufficient to protect from
infections. The additional use of a surgical
mask is highly recommended.

For more information contact:

- You can easily replace the protection shield with a new shield in two easy steps.
- The elastic band is easily adjustable and suitable for adults and children alike. The face protection shield, with 15 mm forehead padding, is comfortable and hard wearing.
